Disclosure of Financial Relationships

Vizient, Inc., Jointly Accredited for Interprofessional Continuing Education, defines companies to be ineligible as those whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients.

An individual is considered to have a relevant financial relationship if the educational content an individual can control is related to the business lines or products of the ineligible company.

No one in a position to control the content of this educational activity has relevant financial relationships with ineligible companies.

We improve lives.

**In big ways through learning,
healing and discovery. In
small, personal ways through
human connection.**

But in all ways, we improve lives.

uhealth

we will soar

vizient.

DEI - Defined

Standard Definition

- **D = Diversity:** Is the presence of different types of people from a wide range of identities with different perspectives and experiences.
- **E = Equity:** Aims to identify and eliminate barriers that prevent the full participation of some groups. It means everyone is given equal treatment and access to opportunities for advancement.
- **I = Inclusion:** Means that everyone feels a part of their team and the larger organization, no matter what their identity. Inclusion is diversity in action.

Working Definition

- **D = Diversity:** Is a fact
- **E = Equity:** Takes work
- **I = Inclusion:** Is a choice

we will soar

vizient.

DEI at UCHealth

To close the gap between what we say about ourselves and the lived experience of patients, staff, and the communities that we serve.

Our Mission:
We improve lives. In big ways through learning, healing, and discovery
In small, personal ways through human connection. But in all ways, we improve lives

To build our workforce in such a way that we can meet our mission of Improving Lives both now and into the future.

UCHealth Office of Diversity, Equity and Inclusion

Chief Diversity Officer, David Mafe

Diversity, Equity and Inclusion strategy; Program implementation; Collaborate with leaders to develop and implement diversity objectives; Serve as a change agent

Director of DEI, Melissa McDonald

Partner with CDO in executing UCHealth's DEI strategy; drive business outcomes, craft thoughtful and progressive DEI programs and create continuous listening and learning opportunities.

Manager DEI Education, Andrew Miller

Diversity, Equity and Inclusion development of training content; facilitation; and leadership development for DEI

UHealth Being an Upstander

/ˈʌpstændə/ noun. **A person who speaks or acts in support of an individual or cause**, particularly someone who intervenes on behalf of a person being harassed or bullied.

Outcomes:

- Provide tangible tools to address daily acts of incivility, harassment, and microaggressions.
- Modeling of Upstander vs Bystander in leadership.
- Provide a sense of safety, inclusion and respect

Final Results

Environment of Mutual Respect	
Effective Date: 7/2022	Replaces Policy: N/A
Policy Owner: Clinical Policy Advisory Group and Office of Diversity, Equity, and Inclusion	

Introduction:
UCHealth is committed to maintaining a safe, healthy and patient environment that is free from any form of harassing or threatening behavior. UCHealth has an expectation of mutual respect from all participants in the healthcare system, including visitors, providers, staff, trainees, learners, vendors and all individuals receiving or obtaining care, or visiting our facilities are expected to act in a manner that respects everyone's dignity and respect. This document describes the organization's policies for promoting an environment of mutual respect and maintaining a safe and healthy work environment free from forms of harassment, threats, violence, and abuse. While this policy provides a safe and appropriate responding to and reporting incidents that violate this program, it does not replace or invalidate any related HR / employment or medical staff bylaw, policy, process, rule or regulation.

Scope:
View the [UCHealth Policy Scope Statement](#) to see where this policy applies.

Policy Details:
I. General Information
A. All individuals who enter the UCHealth system, or any UCHealth facility, or UCHealth entity, are expected to treat each other, staff, providers, trainees, learners, patients, vendors, visitors, and all others with respect through courteous communication and respectful demeanor. To this end, UCHealth strives to create an environment free from all forms of harassment and conduct which are considered offensive, discriminatory, intimidating, threatening, racist, sexist, coercive, abusive, or disruptive. Examples of such inappropriate behaviors include, but are not limited to unwelcome or unwanted:

Verbal	name calling, purposeful misnaming; mispronouncing, and misgendering; profanity; sexual innuendos, suggestive comments, humor and jokes, propositions, threats, discriminatory comments
Unspoken	obscene, suggestive or offensive pictures, posters, calendars, sounds, looks, gestures, aggressive or threatening behavior

The current version of this policy can be viewed on The Source. Printing is discouraged. Page 1 of 4

Office of Diversity, Equity, and Inclusion

Being an Upstander FAQ and Checklists

Practice and Apply Sessions

"In the end, we will remember not the words of our enemies, but the silence of our friends."
Dr. Martin Luther King, Jr.

Register to Facilitate a Virtual Practice and Apply Session:

- Click on link to register for facilitating a virtual weekly practice and apply session.
- An individual from the Office of Diversity, Equity, and Inclusion will add you to a MS Teams Calendar invite for the date you identified in Signup Genius.
- The MS Calendar invite will be the link you utilized to join the session. You will have access to: Present and move individuals into breakout rooms. (See MS Teams Breakout Room tip sheet)

Expectations to Facilitate a Virtual Upstander Practice and Apply:

- This applies to: Organizational Development Consultants/Specialist; HR Services Directors; ODEI Staff members
- The ask is at **least one** practice and apply session a month. You are welcome to sign-up for more than one.

Human Resource Business Partner, HR Manager and HR Director Expectations:

Support your identified client groups leadership teams (Directors and Managers) with an in person or virtual practice and apply session's.

The Ask:

- Two client groups a month
- Reach out to ODEI (inclusion@uchealth.org) if you would like a partner
- ODEI will support or find an Inclusion Committee member
- The Managers of your client group should lead a practice and apply sessions with their teams. The Managers can utilize you as the HRBP or an Inclusion Committee member for support. Reach out to ODEI to support organizing.
- The client groups staff and leaders that missed a hosted practice and apply session by you as the HRBP, are instructed to register for a virtual practice and apply session through ULearn. Please inform your leaders.

Meet Our UCHealth Ascend Graduates

Tay on becoming a Medical Assistant

"MA school was really exciting for me and also made me nervous... My Guild coach was a lot of help and encouraged me not to give up when I felt behind with classes. It was really cool to get hands-on experience at the clinics during applied learning...it's a great feeling to become an MA. I've always wanted to become an MA, and I was able to do it while working full-time and supporting my family as a mom."

Successfully placed as of 1/8/23

Kate on becoming a Medical Assistant

"The MA program was a really good program overall, and it prepared me to become an MA. I had an idea of becoming an MA for a long time but the programs I saw would take multiple years and would cost a lot of money. When I found out UCHealth's Ascend MA program was all online, that UCHealth would pay for it, and that I would get hands-on experience, it was such a relief and exciting for my career."

Successfully placed as of 10/26/22

vizient

Why the Ascend Career Program

- **Supports our mission** of improving lives by building our workforce.
- Increases the number of applicants and hire conversions.
- Supports the demographic change of our staff to **reflect more of the patient population** served.
- **Drives internal career growth**, allowing UCHealth to offer career opportunities to broader and more diverse groups of people.
- **Reduces turnover** as Ascend learners are less likely to leave than their peers.

Meet Tamika

Tamika

“ I liked the care side of health versus the administrative side. I really figured that out as I’m working here, I think I’m a better caretaker than I am of records. I work in the transplant center and I am an admin of course. I schedule all the evals. I bring in the referrals, all the appointments, and I organize the clinic. I was thinking having a phlebotomy cert, I could go and help out in any kind of way. I just wanted to bring more to my team. My mom was very excited when I told her I was going back to school. So it was important for me to finish even though I was going through a bunch of different things at once. I had a rough time though with my phlebotomy program - my mom got sick and passed away but I know she’s probably happy right now – I knew you could do it. And that’s what she used to say to me all the time, so that was kind of my motivation. If I can be an example for my grandchildren, that’s what I want to do. I wanna show them that you can do it. Oh my I did it at 45 years old. You can do it.”

Tamika Roberts

Where Are We Going

we will soar

vizient.

What's Coming

1 Cultural Enhancement

- Unconscious Bias; Just Culture; Inclusive Leadership

2 Supplier Diversity

- Reach a level 3 Supplier Diversity Program (Currently at 1&2)

3 Career Mobility

- UCHealth Ascend
- Job Description Reviews
- Partnership with Community and Schools

4 Listening and Measuring

- Listening sessions with employees
- Benchmarks and established goals for hiring, promoting, and leadership

we will soar

vizient.

Lessons Learned

- Connect DEI initiatives to organizational objectives.
- Get leaders to go first.
- Share vision so that metrics have meaning.
- Remove barriers and create opportunities for talent mobility
- You can't go it alone!

we will soar

vizient.

Key Takeaways

- Diversity, Equity, and Inclusion can bring your mission to life.
- If you can't measure it, you can't change it.
- DEI provides a lens to build a strategically optimized workforce
- Certifications help to measure your progress
- Diversity, Equity, and Inclusion cannot spin in its own orbit.

Equity of Care: Race and Ethnicity (RAE) Project

Why:

Accurate, self-reported race and ethnicity data is necessary

- to create visibility of health disparities,
- provide inclusive care, and
- improve equity of health outcomes.

Guiding Principle:

Ensure all members of our community are seen and accounted for.

Pilot Study Pre (N=37) and Post Test Results (18)

Staff Perceived Barriers and Facilitators of Implementation

Source: Internal U Health data

Pilot Study Post-test Results

Barriers to asking the RAE questions:

- Patient understanding
 - “I personally think that the biggest barrier lies within the individual [**patient**] and the **discomfort** of asking what someone's Race or Ethnicity is. Helping the [patient] understand that there are different diseases that effect some races/cultures more than others...”
- Staff confidence
 - “I struggled for a bit with my **confidence** in asking this of Spanish speaking patients since this question isn't typically something they discuss or are used to hearing.”
- Patient distrust
 - “The only barrier is **patient preconception**, distrust, or paranoia.”
 - “**Reassuring** some **patients** that this was for a positive outcome was something I did not realize I would have to do.”

we will soar

vizient.

Pilot Study Post-test Results

Most beneficial part of training for staff

- Gaining professional understanding
 - “*The **reason why we ask** for it and letting the patients know why also.*”
- Professional job satisfaction
 - “*Being able to introduce this **new feature** to patients was **very rewarding**. In addition, learning more about the patients calling in.*”
- Having needed tools and resources
 - “*Having physical **tools to show** the **patient** the options. The frequently asked questions and answers.*”
 - “*The **scenarios** of asking the questions.*”

Scheduling and Registration Pre Survey

Registration Survey For Race & Ethnicity

The intent of this survey is to obtain Front End user feedback regarding asking the patients their race and ethnicity.

In order for the information from this survey to be the most helpful, it is important that you try to be as honest as possible with your answers. All responses are confidential.

What circumstances would make you not ask a patient for their race and ethnicity?

Do you experience any discomfort when asking this question? If so, why?

Do you understand what you are asking when capturing race and ethnicity?

Do you ever experience any pushback from the patients when capturing race and ethnicity?

Would you be interested in having resources that discuss race and ethnicity?

Please list any additional comments here.

Send me a copy of my responses

Scheduling and Registration Post Surveys

RAE Post Pilot Survey

The Race and Ethnicity Data Collection Project would like to **thank you** for your support of the RAE Pilot. The pilot data and feedback will help us to understand more about the ways we can educate and support our front-end/care navigation users, as well as learn more about the patient experience. Please take a few minutes to give us your thoughts on the overall RAE pilot experience.

Location

Select or enter value

Name (Optional)

Is it clear to you why we are asking for race and ethnicity (RAE)

Education and Training

Did the RAE tip sheet give you enough training to ask for RAE?

Did you receive training other than the tip sheet?

If yes, could you have been successful without the training?

What did you find most beneficial from this training?

What other details would have been helpful for you to know before starting the RAE pilot?

Asking for RAE

Were there barriers to asking the question, if so what were they?

What personal techniques or scripting did you use that helped to obtain this information?

Patient Response

What was the overall response from the patients (examples: excited about the detailed list, unsure, uncomfortable)

Were there common questions or concerns you received from the patient? If so, what were they?

Did you feel comfortable explaining to the patient what we are asking for RAE?

Additional Feedback

What are your overall thoughts of the new race and ethnicity question format and list?

Are there any other details about education, asking RAE, or how the patients responded that you would like to share that could be helpful to rolling this out to all Front End Users?

Send me a copy of my responses
