# Transformative Healthcare Delivery: Health Systems Addressing Social Needs

**Kavita Bhavan, MD, MHS**, Chief Innovation Officer

**Kristin Alvarez, PharmD, BCPS**, Director, Clinical Innovation

**Sheryl Mathew, LCSW**, Manager, Clinical Innovation

**Lisa Cross, MPH, BSN, RN, SMQT**, Director, Post-Acute Services

REFLECTION

# Disclosure of Financial Relationships

Vizient, Inc., Jointly Accredited for Interprofessional Continuing Education, defines companies to be ineligible as those whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients.

An individual is considered to have a relevant financial relationship if the educational content an individual can control is related to the business lines or products of the ineligible company.

No one in a position to control the content of this educational activity has relevant financial relationships with ineligible companies.

REFLECTION

# Learning Objectives

- Identify opportunities to integrate health-related social need interventions into health systems.
- Discuss the value of collaborative partnerships between healthcare providers and social service agencies in fostering a holistic and community-centric approach to care delivery.

# **Breaking Barriers: Health-System Integrated Childcare to Improve Access to Care**

REFLECTION

# Childcare Needs

## Logistical problems such as time and transportation pose barriers to care, particularly for low-income women

Share of women reporting they delayed or went without care in past 12 months because:

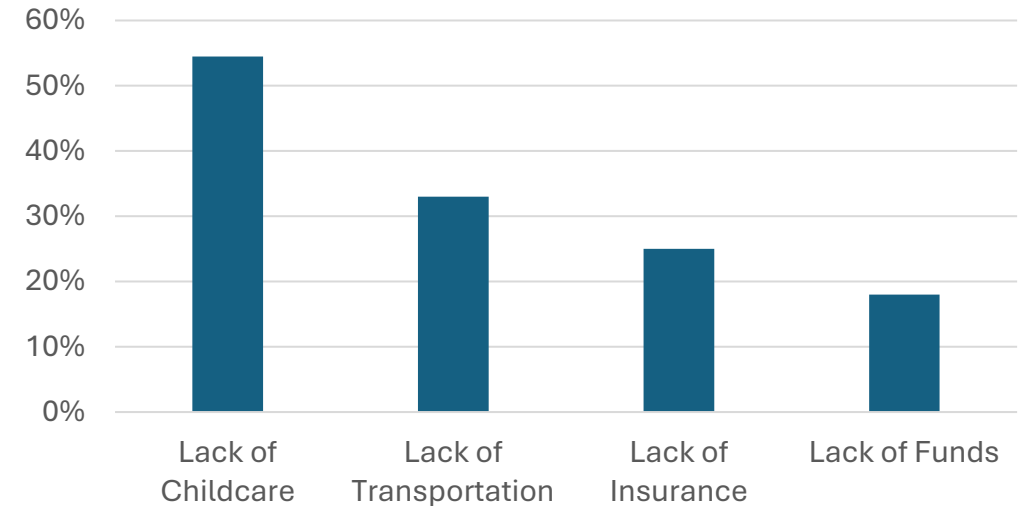

NOTE: Among women ages 18-64. \*Among women employed full- or part-time. +Among women with children. The Federal Poverty Level (FPL) was \$20,420 for a family of three in 2017. \*Indicates a statistically significant difference from 200% FPL or greater; p<.05. SOURCE: Kaiser Family Foundation, 2017 Kaiser Women's Health Survey.

Annie's  
PLACE

A Program of Mommies In Need

## Do You Need Help With Childcare During Appointments

Annie's Place is a childcare center on the Parkland Hospital campus that provides FREE care to children ages 0-6. We believe that no parent should have to choose between taking care of themselves and having safe, loving, expert care for their children.

At Annie's Place, a first-of-its-kind facility, expertly-trained teachers care for children while their caregivers are attending appointments and receiving treatment at the hospital.

If you need childcare during your Parkland appointment, call us at 214-266-8064 to see if there is space or scan the QR code to apply.

Alvarez KS, Bhavan K, Mathew S, et al Addressing childcare as a barrier to healthcare access through community partnerships in a large public health system. *BMJ Open Quality* 2022;11:e001964. doi: 10.1136/bmjoq-2022-001964

# Data Sharing

Patients by Gender

Patients by Ethnicity/Race

Patients by Primary Language

Patients by Education Level

# Lessons Learned

- Clearly define what measurements will be used to prove efficacy
- Early real-time data crucial for community partners to continue to self-fund
- Trust partnering community-based organization to be the experts in the social need being addressed

# Key Takeaways

- Leverage community partner relationships for socially-driven access needs
- Build platforms where data is shared bi-directionally and equitably
- Share responsibility in screening for multi-level social needs

Ganguly, A.P., Alvarez, K.S., Mathew, S.R. *et al.* Intersecting social determinants of health among patients with childcare needs: a cross-sectional analysis of social vulnerability. *BMC Public Health* **24**, 639 (2024). <https://doi.org/10.1186/s12889-024-18168-8>

# **Reducing Emergency Department Overuse Among Patients Experiencing Homelessness: A Hospital-Community Collaboration**

REFLECTION

# Background Information

- Everyone has a right to life, hope, dignity and respect
- Homelessness is a major public health crisis (APHA, 2017)
- Since 2011, Emergency Department (ED) utilization increased 80% by homeless individuals; three times the US norm (Franco et al., 2021)
- High rates of ED overutilization strain healthcare systems and lead to overcrowding (APHA, 2017)
- Frequent ED users are classified as “frequent users” ( $\geq 4$  visits/year) or “super users” ( $\geq 20$  visits/year) (Franco et al., 2021)
- Parkland defines high ED utilizers as individuals using ED services 6 or more visits in a 30-day period.

**Parkland Health High Utilizer Data - February 2021 Demographics**  
**Total = 76 High Utilizer Patients**

<b>Homeless</b>	<b>Gender</b>	<b>Ages 50-59</b>
60%	81% Male	37%

<b>Medical Condition</b>	<b>Mental Health Diagnosis</b>	<b>Substance Use</b>
Multiple	65%	68%

# A Hospital-Community Collaborative

## Program:

- Provides critical interventions and care management services to individuals with high ED utilization in partnership with an emergency homeless shelter

## Services/Goal:

- Provide 24/7 shelter with semi-private sleeping quarters
- Crisis stabilization, housing navigation & placement, individual and group counseling, job readiness and placement, financial education, and life skills classes
- Connection to medical, mental health, and substance abuse services onsite
- Connection to onsite partners for employment, legal aid, Supplemental Nutrition Assistance Program, Supplemental Security Income

## Discharge Goals:

- Client is no longer a high utilizer of the ED (less than 6 ED visits in a 30-day period), and
- Client has secured stable housing

## Tools:

- Daily ED utilization reports, high utilizer committee (interdepartmental), complex case flags in the EMR, psychosocial assessments, patient-centered care plans, ED interdisciplinary team conferences, treatment centers, individual/group therapy, recreational activities, job readiness classes, Housing First Model

## Team:

- Providers, Registered Nurses, Licensed Clinical Social Workers, Program Managers, Shelter Crisis Managers, Case Managers, Case Aides

# Program Impact

May 1, 2022- June 30, 2024 New Clients Enrolled = 162			
Metric	Visits	Cost	Reduction %
ED Visits One Year Before Program Enrollment	5,863	\$11,726,000	
ED Visits While Enrolled In Program	1,009	\$2,018,000	83%
ED Visits One Year After Discharged From Program	2,056	\$4,112,000	65%
Hospital Savings (does not include cost of program)	2,789	\$5,596,000	
<b>Total Savings</b> (annual program cost is \$758,983)		<b>\$4,078,034</b> <b>(2-year savings)</b>	

**Note:**

ED cost calculations based on \$2000 per ED visit

REFLECTION

# Lessons Learned

- Conduct a Needs Assessment (assess for frequent ED visits)
- Develop a high utilizer program
- Secure executive support and program funding
- Identify a homeless shelter partner
- Negotiate a contract
- Hire and train staff
- Enroll clients
- Create, implement, evaluate, and re-evaluate the program

# Key Takeaways

- It's Not a Race, It's a Journey!
- Accept that the work begins with YOU
- Remain open to new ideas and uncommon approaches
- Understand past failures without repeating them
- Be prepared
- Understand the value of your community stakeholders
- Be relentless and supportive
- Celebrate your success
