# How an Interdisciplinary “Tier 3 Huddle” Drove Patient Flow Across an NYC Hospital

*Frank Volpicelli, MD, Chief Medical Officer and Vice President*

*Roxanne Rosenberg, PA, MS, Director of Capacity Management*

*Lynsey Lipowicz, MBA, BSN, Director of Clinical Operations and Analytics*

*Chinenye Ezeh, MPH, Project Manager Operations*

*Erin Butrico, MHA, Senior Project Manager, Clinical Operations and Analytics*

# Disclosure of Financial Relationships

Vizient, Inc., Jointly Accredited for Interprofessional Continuing Education, defines companies to be ineligible as those whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients.

An individual is considered to have a relevant financial relationship if the educational content an individual can control is related to the business lines or products of the ineligible company.

No one in a position to control the content of this educational activity has relevant financial relationships with ineligible companies.

REFLECTION

# Learning Objectives

- Discuss leveraging technology to increase visibility and create an accountability system to resolve discharge delays and facility and equipment-based issues hospitalwide.
- Describe the use of dialogue between operational and clinical staff to ensure timely discharge planning.

# Staffing

Purpose: Provide visibility into today's staffing abilities and impacted areas

The screenshot shows a Microsoft 365 SharePoint list titled "Tier 3 Staffing Status". The interface includes a top navigation bar with "General", "Posts", "Files", and "Tier 3 Staffing Status" (selected). Below the navigation bar, there are options for "+ New" and "Edit in grid view". The list is filtered for "Today Only" and has a "Clear filters" button. The table columns are "Reporting Date", "Escalation Team", "Status", "Impacted Groups", and "Comments". All entries in the table have a reporting date of "05/15/2024" and a status of "GREEN". The escalation teams listed are: Facilities, Supply Chain, Biomed, IT, Support Services - EVS, Support Services - Transport, Support Services - Laundry, Support Services - Waste Management, Support Services - Food & Nutrition, CC/SW, Radiology, IR, and Pharmacy.

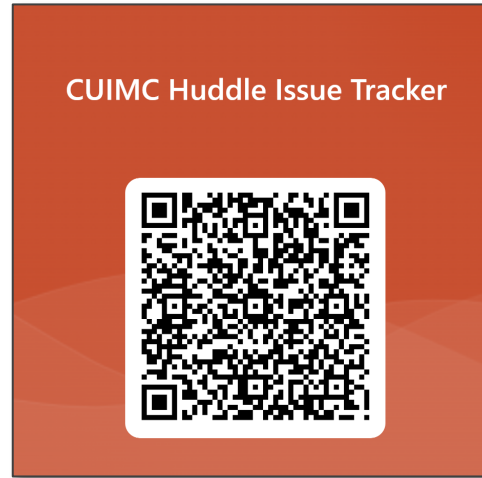

Reporting Date	Escalation Team	Status	Impacted Groups	Comments
05/15/2024	Facilities	GREEN		
05/15/2024	Supply Chain	GREEN		
05/15/2024	Biomed	GREEN		
05/15/2024	IT	GREEN		
05/15/2024	Support Services - EVS	GREEN

# Big 5 Escalations

Purpose: Escalate patient flow and safety-related issues across the campus

Example Only

A screenshot of a web form titled 'CUIMC Huddle Escalation Form'. The form contains the following fields:

- 1. Is this a **GENERAL ISSUE ESCALATION** or a **PATIENT LINE NECESSITY ASSESSMENT ESCALATION**? \*
  - General issue escalation
  - Patient line necessity assessment escalation
- 2. Issue Location \*  
PACU
- 3. Escalation Team \*  
Facilities
- 4. Issue Description (**NOTE: Include unit, room, asset tag numbers. Do NOT include patient name or MRN**) \*  
Call bell light needs to be repaired
- 5. Ticket Number (**NOTE: All issues must have a VALID ticket number**) \*  
1234567

# Big 5 Escalations

Purpose: Escalate patient flow and safety-related issues across the campus

# Lessons Learned

- Utilizing technology to automate frontline workflows can enhance efficiency, streamline communications, and support patient flow
- Ensuring data visibility and accessibility is crucial for driving performance improvement and informed decision-making

# Key Takeaways

Discharge Before 12pm

0.82%

Discharge Before 2pm

2.98%

Length of Stay Variance

1.2 days

Established **unified platform** and **notification system** to organize action items

Created campus-wide **escalation tracking list** with real-time status updates

Built **new dashboards** for escalation and patient flow trend visualization

# 65%

Percent increase in discharge delay volume

Reduction in discharge delay resolution times:

Radiology

↓ 6 hrs

Labs

↓ 3 days

Therapy

↓ 5 hrs
